## SUMMARY

I am a versatile Full Stack Developer with experience in both frontend and backend development. I bring a strong foundation in modern web technologies, problem-solving, and technical innovation, combined with a background in interior design. I strive to contribute to dynamic teams and deliver exceptional, client-focused solutions.

---

## EXPERIENCE

### **Full Stack Developer | DigitalTech | Sweden (Hybrid)**

*Jun 2024 - Present*

At DigitalTech, I work on website development and CMS platforms like WordPress and Next.js. My responsibilities include building and maintaining APIs, managing databases with MongoDB, and utilizing Git for version control. I ensure the delivery of high-quality web solutions aligned with client goals.

### **Owner & Lead Interior Designer | Akkad Design | Riyadh, Saudi Arabia**

*2014 - 2016*

As the owner of Akkad Design, I led a team of engineers in delivering high-end interior and exterior designs for villas, shops, malls, and restaurants. I was responsible for the entire project lifecycle, including design supervision, implementation, and final delivery.

### **Senior Interior Designer & Project Manager | Allure Design | Riyadh, Saudi Arabia**

*2009 - 2014*

I managed multiple projects from concept to completion, overseeing a team of engineers. My responsibilities included creating designs, reviewing engineering drawings, supervising contractors, and ensuring successful project delivery.

### **Interior Designer | AADG Design | Riyadh, Saudi Arabia**

*2008 - 2009*

I worked on the design and execution of interiors for villas, shops, malls, and restaurants. I also gained experience in supervising decoration works and collaborating with contractors.

### **Junior Interior Designer | Organic Design | Aleppo, Syria**

*2005 - 2007*

I specialized in designing both interior and exterior facades for residential and commercial projects, including the notable Odumiya Mall in Aleppo. I used tools like AutoCAD and 3D Studio Max to create detailed designs and visualizations.

---

## EDUCATION

### **Web Developer .NET | Jönköping University | Sweden**

*August 2023*

Completed a Diploma Level program in .NET Web Development.

### **Bachelor's Degree in Interior Design | Aleppo University | Aleppo, Syria**

*August 2004*

Graduated with a Bachelor's degree in Interior Design.

---
